

**Gun Barrel Pilings®**

# Gun Barrel Pilings®: Noticeably Better Pilings

### Appearance Upgrade

Create uniform clean lines for beach homes, piers, and columns with uniform diameter Gun Barrel Pilings® and poles from American Pole & Timber.

Natural yet refined, they upgrade the appearance of any project.

### Stronger than Square

Contractors and engineers agree that Gun Barrel Pilings® are stronger than square pilings of comparable size with higher allowable bending moment, better surge resistance, and more stability at the concrete line.

### Large Sizes Available

Treated or untreated, Gun Barrel Pilings® from Building Products Plus are available up to 50 feet long and up to 22 inches in diameter.

Call (866) 397-3038 to learn more about Gun Barrel Pilings®.

Gun Barrel Pilings®, exclusively available from American Pole & Timber, are the same diameter along their entire length.

Gun Barrel poles and pilings are available in pine, cedar, doug fir, and more.

### Cheaper than Square

No-taper Gun Barrel poles and pilings are cheaper than square pilings in most sizes. You can also expect on-site labor savings...

### Easier & Faster Installation

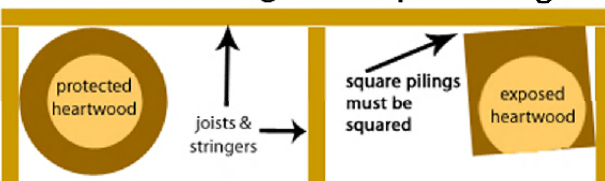

Round pilings are easier to drive and faster to install because they do not require tedious squaring to joists and stringers.

### Longer Lasting than Square

Unlike many square pilings, Round Gun Barrel Pilings® have very little exposed heartwood so they are strongly protected from termites, mollusks, and other wood boring organisms.

Gun Barrel Pilings®

Square Pilings

### No Squaring Required

Line them up and keep building. Gun Barrel Pilings® are easier to install because of their uniformity.
